

Portable vacuum Solutions –Asphalt Fixed Filler collection system- 30kw 2017

TASK

IBS were requested to provide a solution to pick up filler dust from a fixed system

Options

1. We had to provide a unit that can be moved about and emptied easily.
2. We had to be a certain weight as limited with lifting equipment onsite.
3. We had to be an easy to operate system that could be used at night

Solution

We offered the bl30av unit with a 1.5m³ presep bin with butterfly valve opening with 50m metres of hose and a 63a supply requirement.

System components

1 x bl30av 30kw vacuum box with filter house
1x 1.5m³ presep bin with manual butterfly valve
60m of fixed pipework
