

# Portable vacuum Solutions – servicing 2016

## TASK

IBS were requested to provide a service and re commissioning of a vacuum machine from another supplier purchased some years ago

## Options

1. We had to ensure that their current unit could be used efficiency
2. To stop using brushes to clean
3. To make better use of capital investment unit supplied some years ago.
4. To show and explain how the unit is operated safely

## Solution

**Service to include new filters**  
**Commissioning of customer unit**  
**New hose – 3 inch lightweight hose**

## **Provide manual Training**

### **System components**

- 1 Supply new hose – anti static hose
- 2 To supply hose connections
- 3 To show the operator how to best use the machine
