

Ash recovery for recycling from ERF site

Challenge

To provide a solution for the recovery of ash from an ERF site for recycling.

Requirements

- An efficient, versatile and easy-to-use vacuum unit to recover ash from the plant

Solution / Result

We installed the multi-talented **IBS-25** vacuum unit with

- 30 metres of vacuum hose
- 3 inch fluiduser
- 2 inch floor tool
- 10m length of 2 inch hose
